

Community Participation

We are an NDIS registered provider. We have been supporting people to connect with, participate in, and belong in their communities for many years all across Adelaide.

Community Participation

For people to engage in activities they enjoy, develop meaningful roles in their communities, and create opportunities to meet people and make friends.

Development of Life Skills

For people who are finishing school, learning about the world after school, preparing for work, or enjoying retirement.

Transport Assistance

For people to get out and about in their local and favourite communities.

Group/Centre Activities

For small groups of people to build skills in their shared areas of interest such as sport, health and fitness, music, cooking, shopping, arts and crafts, or in running their own business.
